

test turnouts

test crossings

The diagram shows a thick horizontal black line representing a reference line. Four thick black diagonal lines cross it from top-left to bottom-right. The first crossing is labeled X1-1, the second X1-2, the third X1-3, and the fourth X1-4. Vertical tick marks are placed on the horizontal line at the crossing points and at intervals between them.

X1-1

X1-3

X1-2

X1-4

The diagram shows a thin horizontal black line representing a reference line. Four thin black diagonal lines cross it from top-left to bottom-right. The first crossing is labeled X2-1, the second X2-2, the third X2-3, and the fourth X2-4. Vertical tick marks are placed on the horizontal line at the crossing points and at intervals between them.
